

Required DARS Tables

The **Transferology Connector** must access several **DARS tables** to provide the intended course equivalency and degree audit functionality. This page identifies the necessary DARS tables for each of those functions.

Degree Audit

For the degree audit functionality to work, the database user needs visibility and permission to perform the following:

Select, insert, update, and delete on the following tables:

```
JOB_QUEUE_SYSIN  
JOB_QUEUE_DESTINATION  
JOB_QUEUE_DETAIL  
JOB_QUEUE_LIST  
JOB_QUEUE_ACCEPT  
JOB_QUEUE_COURSE  
JOB_QUEUE_SUBREQ  
JOB_QUEUE_REQ  
JOB_QUEUE_OUT  
JOB_QUEUE_RUN
```

Oracle databases also need select on the following sequences:

```
JOBQD_SEQ_NO  
JOBQO_SEQ_NO  
JOBQR_SEQ_NO  
JOBQSI_SEQ_NO  
JOBQSO_SEQ_NO
```

Course Equivalency

For the Course Equivalency functionality to work, the database user needs visibility and permission to perform the following:

Select on the following tables:

```
MASTREF  
MASTREF_ADDRESS  
TCA_MASTER  
TCA_RULE  
TCA_SOURCE  
TCA_TARGET
```
