

Upgrading from DARwin to uAchieve

Upgrading the Transferology Connector from DARwin to uAchieve is straight forward.

Transferology Connector minimum version for uAchieve

Check your Transferology Connector's version by viewing the contents of the **version.properties** file.

The minimum version for uAchieve is **4.3.9** built on or after **Feb 7 2013**.

If your Connector is older, please download and install the latest Connector from the [Connector Downloads](#) page.

Transferology Connector DARwin to uAchieve Upgrade Steps

1. Revise the **daversion** line in the **cas4.properties** to:

```
daversion=uachieve
```

2. Remove these lines from the **cas4.properties** file:

```
tcaLuceneFlag  
tcaLuceneDirectory  
tcaLuceneDirectorySwap  
tcaIndexerPassword
```

3. Add a uAchieve request handler so the correct audits are created for Transferology see the [uAchieve daemonContext.xml](#) section of the Transferology Connector's **Install and Configure** page.

4. Restart the application server or redeploy the Transferology Connector.
