Mapping Transferology Program Answer fields to uAchieve Sysin fields

Please see the uAchieve Audit Request Tables page for more information about the SYSIN fields.

Pseudo Course Answer

Pseudo Course answers are turned into CRS SYSIN rows. The mapping between the field on a Pseudo Course Answer and the field in the CRS SYSIN is as follows:

Answer Field	SYSIN Field	Notes
Pseudo Course (pflg)	PFLG	Selecting 'N' will insert spaces in the sysin, signifying a regular course. Selecting 'Y' will insert a 'P' into the systin, signifying a pseudo course.
Instidq	n/a	
Instid	INSTID	
Instcd	INSTCD	
Rcredit	RCREDIT	
Course Dept	COURSE	When an audit is submitted, a forward slash will automatically be added between the values of the course department and course number fields to allow uAchieve to pad the fields appropriately.
Course Num	COURSE	When an audit is submitted, a forward slash will automatically be added between the values of the course department and course number fields to allow uAchieve to pad the fields appropriately.
Course Title	CTITLE	
Course Year Month	YT	
Grade	GRADE	
	RCREDIT SIGN	Not settable from Transferology. Defaults to positive.
	IFLAG1	Not settable from Transferology. Defaults to no iflag value.
	EVALFLG	Not settable from Transferology. Defaults to space.
	EVALLOCK	Not settable from Transferology. Defaults to space.

Marker Requirement (EX1)

Marker Requirement answers are turned into EX1 SYSIN rows. The mapping between the field on a Marker Requirement Answer and the field in the EX1 SYSIN is as follows:

Field	SYSIN Field	Notes
Marker Type	ASSIGNC	Possible values are Requirement (R) or List (D)
Requirement Name	RNAME	
Requirement/List Value	COURSE	
Catalog Year Term	YT	
Instcd	PSNAME	
	INSTCD	
Control Code	CTLCD	
	RCOURSE	Not settable from Transferology. Defaults to spaces.

	AC1	Not settable from Transferology. Defaults to spaces.
	AC2	Not settable from Transferology. Defaults to spaces.
	RC1	Not settable from Transferology. Defaults to spaces.
	RC2	Not settable from Transferology. Defaults to spaces.
	MAXHRSCK	Not settable from Transferology. Defaults to spaces.
	MATCHCTL	Not settable from Transferology. Defaults to spaces.
